

The new *EBSCO Discovery Service*™ (EDS) User Manual

SEARCH INTERFACE

The screenshot shows the EBSCO Discovery Service (EDS) search interface. On the left is a sidebar with a 'YOUR LIBRARY logo' (callout B), a 'My dashboard' section with links to Overview, Projects, Liked, Searches, Viewed, and Holds & checkouts, a 'Research tools' section with links to General search, Publications, Concept map, and Supplemental sources, and an 'Additional Resources' section with links to Library homepage and EBSCO Connect. The main area is titled 'Search articles, books, journals & more' and features a search box (callout A) containing the text 'astrophysics'. Below the search box are two sections: 'POPULAR SEARCHES' with suggestions like 'astrophysics', 'astrophysics and space science', 'astrophysics for people in a hurry', and 'astrophysics research'; and 'PUBLICATIONS' with results like 'Journal of astrophysics and astronomy', 'Astronomy and Astrophysics', 'Astrophysics and Space Science', 'Astrophysics', and 'The Astronomy and Astrophysics Review'. In the top right corner, there is a user profile icon (callout C) and a small circular icon with a person silhouette.

- A Search Box:** A box to search for topics, keywords, and other contents. Or it can be used to search suggestions or popular publications To help you complete your search faster.
- B Dashboard:** A part where the user can view the searches that have been made. See the projects they have created. View Favoritesand see the folders stored
- C Account Profile:** create a personal account to save your favorite articles on the dashboard. You can also set up your personalize setting here.

Performance of a Broad-Band, High-Resolution, Transition-Edge Sensor Spectrometer for X-ray **Astrophysics**

Future X-ray **astrophysics** experiments require multiplexed readout of high fill-factor, kilo-pixel arrays of transition-edge sensors (TESs), with very high spectral resolution over a broad range of energies. In this paper we report on a ...

SEARCH RESULTS (continue)

The screenshot shows the EBSCO search results interface. At the top, a search bar contains 'astrophysics'. Below it are filters: 'All filters (2)', 'Online full text', 'Peer reviewed', 'Past 12 months', and 'Source type'. A red circle '1' highlights the 'Advanced search' link. On the left, a sidebar contains 'YOUR LIBRARY logo', 'My dashboard' (Overview, Projects, Liked, Searches, Viewed, Holds & checkouts), 'Research tools' (General search, Publications, Concept map, Supplemental sources), and 'Additional Resources' (Library homepage, EBSCO Connect, Find My Organization, EBSCOhost). A red circle '7' highlights the 'Find My Organization' link. The main results area shows 'Results: 38,940' and a 'Sort by' dropdown set to 'Relevance', with a red circle '2' highlighting the dropdown. Below this, there are two result cards. The first is a 'PUBLICATION' card for 'Astrophysics' journal, with a red circle '3' highlighting the card. It includes details like 'Subjects: Astronomy; Science -- Astronomy -- Astrophysics; Sciences -- Astronomy' and 'ISSN: 1573-8191; 0571-7256'. A 'Search this publication' box and an 'About this publication' link are also present. The second is a 'RESEARCH STARTER' card for 'Astrophysics', with a red circle '4' highlighting the card. It provides a summary of the field and a 'Read more' link. Below these cards, a specific result is shown: 'Performance of a Broad-Band, High-Resolution, Transition-Edge Sensor Spectrometer for X-ray Astrophysics'. A red circle '6' highlights the 'Like' button (heart icon) next to the title. A red circle '5' highlights the menu icon (three dots) next to the title. A red circle '8' highlights the 'Access now' button at the bottom of the result. A red circle '7' highlights the 'Find My Organization' link in the sidebar.

- 1 Advanced Search:** Click to enter advanced search where you can search with many different word structures Boolean operators and field codes
- 2 Sort By:** Sorting results by relevance, or date
- 3 Publication Placard:** If there are publications that match with all the details searched - whether it be books, magazines or the Journal badge at the top of the results list will appear, and there may also be a “search this publication” box appeared
- 4 Research Starter Placard:** present a link to reliable summary (and can be reference) to help start your research path
- 5 Tools Menu:** menu to access the reference functions, add that content to the project, share and open. Also downloading the full text content (These also available on the Detailed record page)
- 6 Like:** Click to LIKE and add that result to your favorite list
- 7 Access Now:** Click to open the list or select that item to open.
- 8 View Details:** Click to view detailed record as well as access to tools - like, share, copy reference, adding to Dashboard and download documents or the full CSV file with references.

CONCEPT MAP

The screenshot displays the EBSCO Concept Map interface. At the top, there is a search bar with the text 'Start a new search...' and a magnifying glass icon. To the right of the search bar is a red circle with the number '3'. Below the search bar is a circular concept map with 'archetype' at the center. The map is composed of various concepts connected by lines, including 'Claude Levi-Strauss', 'comedian', 'Carl Jung', 'stock character', 'Romantic hero', 'literature', 'Greek mythology', 'cliche', 'villain', 'Jungian', 'character', 'World tree', 'Greek', 'Anton Chekhov', 'trickster', 'Sigmund James George Frazer', 'little people', 'superhero', 'Bubble Comics', 'Chivalric romance', 'Collective unconscious', and 'Mad scientist'. A red circle with the number '1' is placed over the 'archetype' concept. To the right of the concept map is a 'SEARCH BUILDER' section with a red circle with the number '4' and buttons for 'Add a concept', 'SEE FULL RESULTS', and 'CONTENT PREVIEW'. Below the 'SEARCH BUILDER' is a detailed view of the 'Greek mythology' concept, which includes a description, domain, and relationships. A red circle with the number '2' is placed over the 'ADD TO SEARCH' button in this detailed view.

Concept Map provides a more visual and interactive approach to exploring topics with artificial intelligence. The primary purpose of Concept Map is to allow users to interactively and visually explore related concepts to construct effective EDS search queries, yielding relevant, specific EDS results.

- 1 You can organize the concept map by clicking and drag the pointer around to move the topic to different points in map
- 2 Click on the topic to view information about the topic, and click Add to search if you want to add the topic to Search Builder.
- 3 You can add additional topics in Search Builder. And when you add, you will be able to click on the content preview button to see an example of the search results.
- 4 When you're done adding topics to Search Builder, click the See Full Results button to continue your search for your terms in EDS.

Note: You can click the Boolean operator in search Builder to change it. For example, click AND to change it to OR.

Detailed Record

There are 2 download options which are:

1. online full text (HTML or PDF)
2. csv (metadata only)

Download

Article
The Colon Cancer Conundrum.
